

Arjun Shukla

React-native developer

A passionate and detail-oriented React Native Developer with 4.5 years of experience in building high-performance, cross-platform mobile applications. Skilled in writing clean, maintainable code and turning complex requirements into smooth, user-friendly mobile experiences. I have a strong grasp of front-end development principles, mobile UI/UX best practices, and API integration, with hands-on experience deploying apps to both iOS and Android.

I thrive in collaborative, agile environments and have contributed to impactful projects across domains like real estate tech, lifestyle apps, and community platforms. I'm always eager to learn new technologies and bring innovative ideas to life through scalable and maintainable code.
